### PROFILE

Generally, I find myself friendly, outgoing, kind and positive. From professional point of view, I love to work as a team member. I am responsible, loyal, organised and trained well enough to work in various environments. As I mention below, I have experience working in busy, multicultural & business oriented environment's. As a recent graduate from Openclassroom's Web Developer course, I am looking for a position that I can utilise my skills from my education, previous experience, and technical skills acquired to make an impact on your company success. As a recent graduate, I am trained on the industry's most up-to-date skills while growing my own skills which include (HTML, CSS and SASS).

### WORK EXPERIENCE

- Assistant Manager 2011
- Main occupation - sales and delivery management
- Responsibilities included car deliveries to the potential customers as well as the technical aspects of the appearance and work of offered cars.

## INTERESTS

I have some previous experience in Youth in Action, Erasmus+ and European volunteer services, such as international projects which helped me become more outgoing at the international cooperation level. Teamwork and team building experiences helped me find the right way to approach a team and be productive in it, while working in car rental and logistics roles I had an obligation to be responsible for educating new employees which required being strict, certain and available for help at all times.

In my free time enjoy sports like running and swimming, going on hikes to the nature and volunteering in my local community.
